Product Description

GB T3-T8 5083 1060 2024 3003 6063 6061 100-2000mm Smooth Surface Reflective Aluminum Sheet For Construction

Product Description

What is aluminium sheet used for?

Aluminium sheets have a wide range of applications within the construction and housing industry. Some of the many uses of aluminium include gutters, siding, roofing and cladding. After steel, aluminium is the second most used metal in buildings.

What are 5 main uses of aluminium?

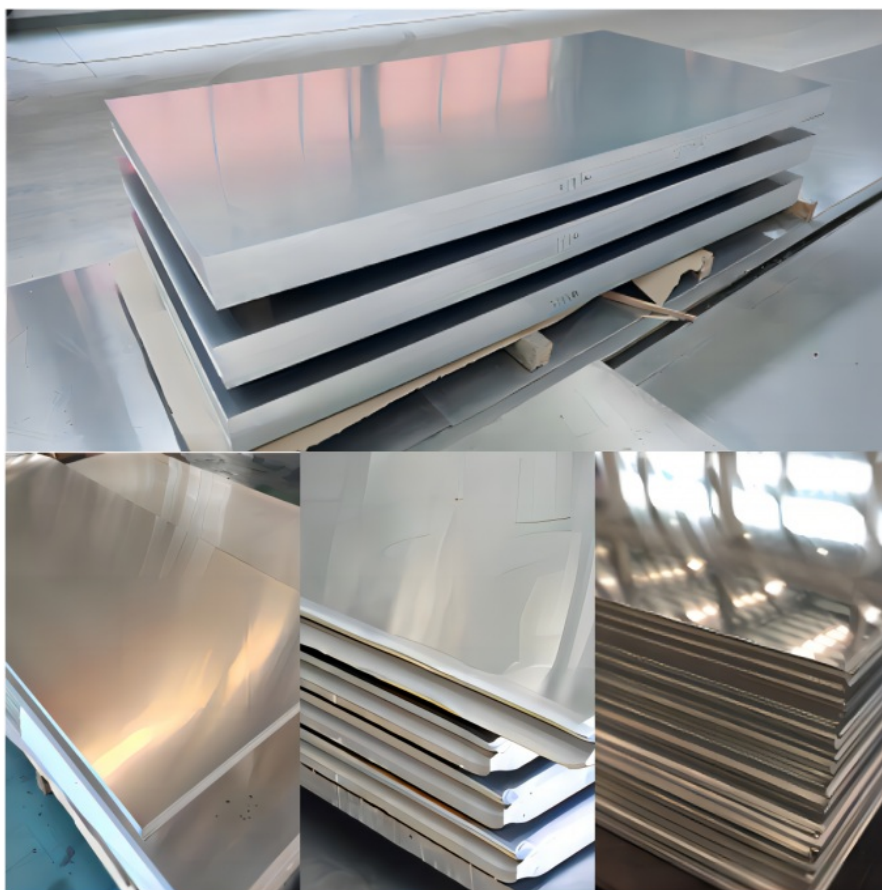

Aluminium is used in a huge variety of products including cans, foils, kitchen utensils, window frames, beer kegs and aeroplane parts. This is because of its particular properties.

How long will aluminum last?

It is often used on the exterior framing of storefront doors and windows. Depending on who you talk to, aluminum will last anywhere from 10s to 100s of years before decomposing. (We lean toward the former.)

Product Name	Aluminum Sheet Plate
With	100-2000mm
Thickness	0.15-350mm
Length	Less than 8000mm
Temper	T3-T8
