

AISI 6000 Series Metal Angle Aluminium Construction Structural Steel Angle Rustproof

Our Product Introduction

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: LIANZHONG
- Certification: ISO9001
- Model Number: 1000series, 2000series, 3000series, 5000series, 6000series, 7000series
- Minimum Order Quantity: 1ton
- Price: Negotiable
- Packaging Details: Exporting package/wooden box package/Or per customers'requirement
- Delivery Time: 3-15 days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 20000 Ton/Tons per Month

Product Specification

- Place Of Origin: Jiangsu, China
- Grade: 6000
- Application: Construction
- Thickness: Customized
- Use: Widely
- Feature: Eco-Friendly
- Highlight: **AISI metal angle aluminium, structural steel angle rustproof, angle iron construction rustproof**

Product Description

AISI 6000 Series Silver Aluminum Steel Angle For Construction Customized Size

Are aluminum angles strong?

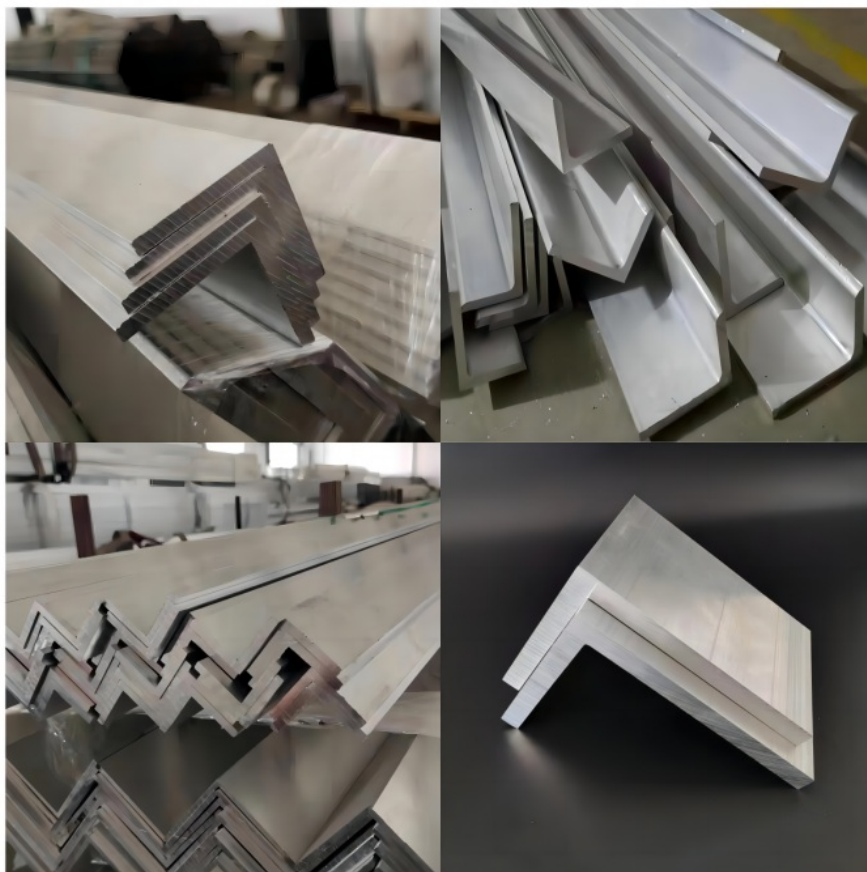

The structurally strong yet low weight 6061-T6 alloy used in these types of aluminum angles is more suited to heavy-duty structures such as marine components, pipelines, train carriages, trusses and floor framing. They offer the advantage of low weight yet provide strong structural support.

What are aluminium angles used for?

An aluminium angle can be easily installed to cover chipped edges, effectively disguising the marred surface behind their sturdy silver body. In the same way that aluminium angles can be used to hide away chips and gaps, they can also be used to hide rough, uneven surfaces that are not able to be smoothed over.

Product Name	Aluminum steel Angle
Material	Good first grade primary Aluminum ingot
Grade	6000 series
Temper	T3-T8
Surface Treatment	Anodized/Power coated/Electrophoresis/Wooden print/Sandblasting/Matte/Short anodized&powder coated/Polishing/Brush
Application	construction
Length	Customized length
Place of origin	China
