Product Description

JIS 5754 Checkered Surface Aluminium Checkered Plate Uesd For Carriage Floor 1800mm

5754 aluminum has the characteristics of medium strength, good corrosion resistance, weldability and easy machining. It is a typical alloy of Al-Mg series. In foreign countries, 5754 with different heat treatment states is the main material used in the automobile manufacturing industry (car doors, molds, seals) and canning industry.
