Product Description

Smooth Surface A5005 Aluminium Sheet Alloy Plate Laser Cutting OEM For Billboards

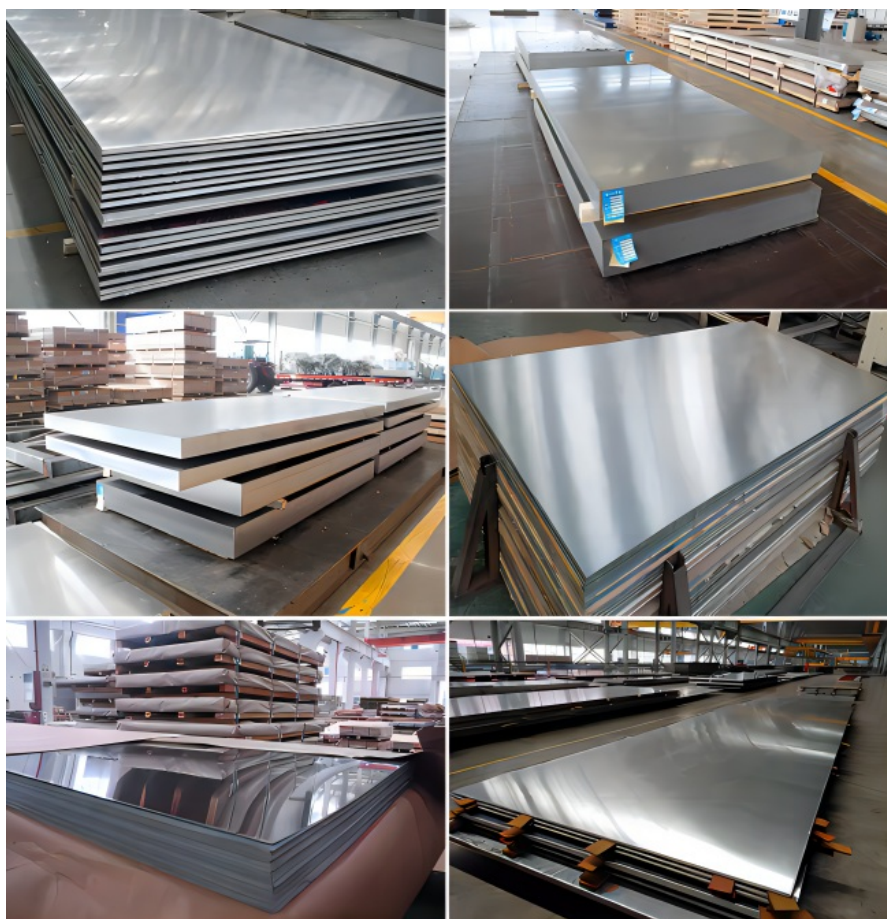

Product Description

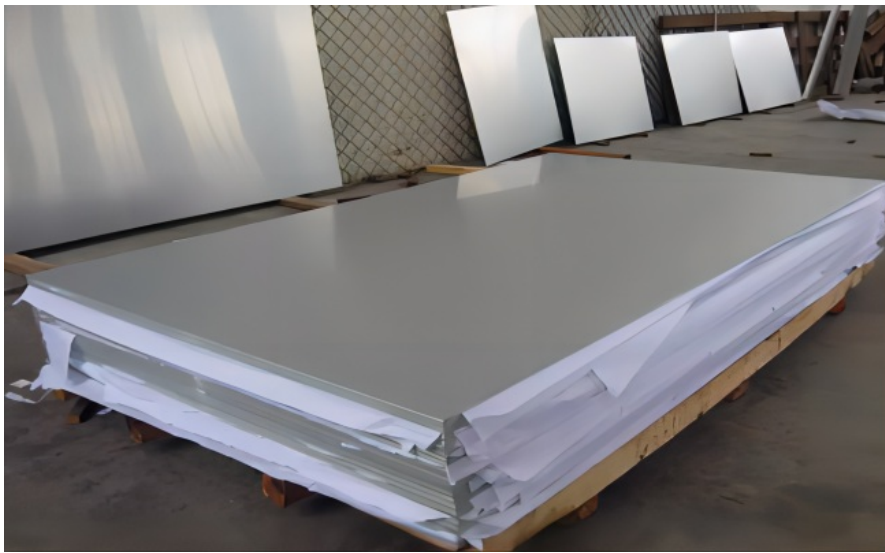

5005 aluminum plate belongs to aluminum magnesium alloy, with moderate strength and good corrosion resistance, widely used in cookware, instrument panel, shell and architectural decorative parts, building materials inside and outside, vehicle interior and so on. When anodized, 5005 is brighter than 3003, so many curtain wall finishes are made of 5005 alloy.

5005 aluminum plate advantages: low density, high tensile strength, high elongation, good welding performance, can not be strengthened by heat treatment.

FAQ

1.What is your paying terms?

Our usual paying terms are 30%TT as deposit and balance paid after seeing copy of bill of loading. For clients cooperated for more than one year, we accept 20% prepay. Beside we do business also under LC terms.

2.How long is your delivery time?

For the goods we have in stocks, we deliver the goods within 5 days. If it is a production order with volume not above 200tons, the delivery time will usually be within 20days after sealing contract. And the delivery time shall be slightly longer for order volume above 200tons.

3.Before cooperation we want a sample for inspecting of quality, is that okay?

We can provide a free sample for you shall sample value not above 30USD, you only need to pay the express charge. For a sample valued more than 30USD, the express charge and just one half of sample value is on the account of you, and we afford the other half.

4.Does your company accept third party inspection?

The answer is yes. Especially for new client, they have concern on product quality and quantity, so they authorized the third party inspection like SGS and BV several times to inspect the goods in stead of them, and we coordinated with their work well.
