## Product Description

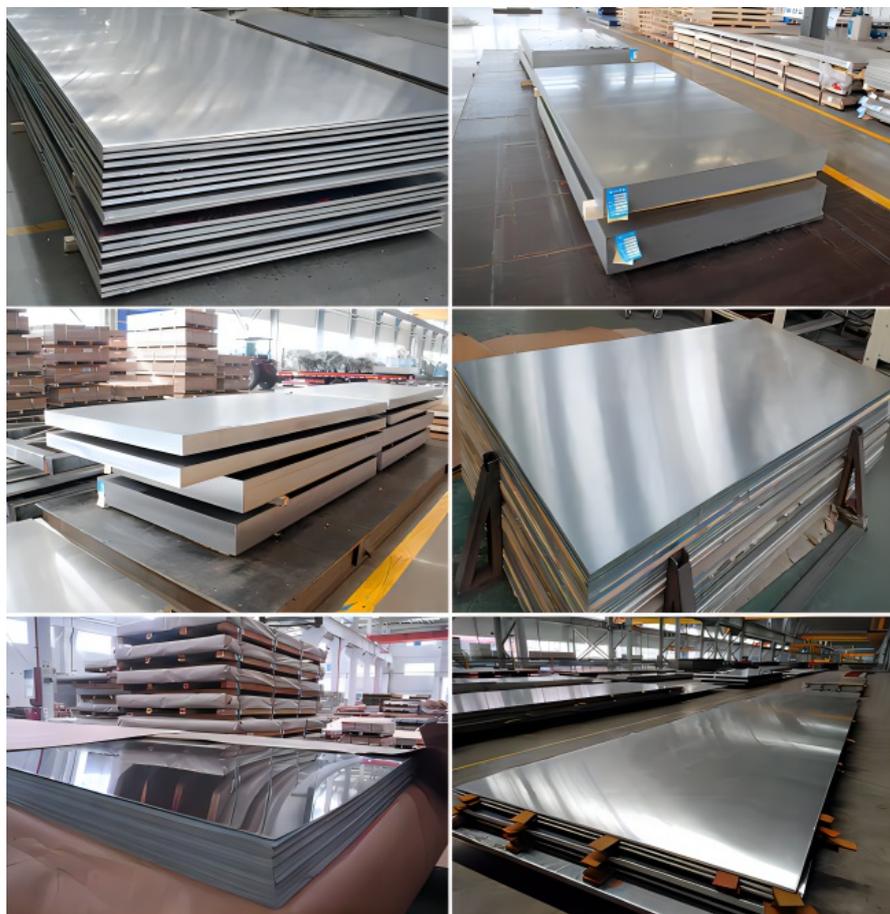

### Anodizing 7075 H112 Aluminium Sheet Plate Customized Size For Mold Processing

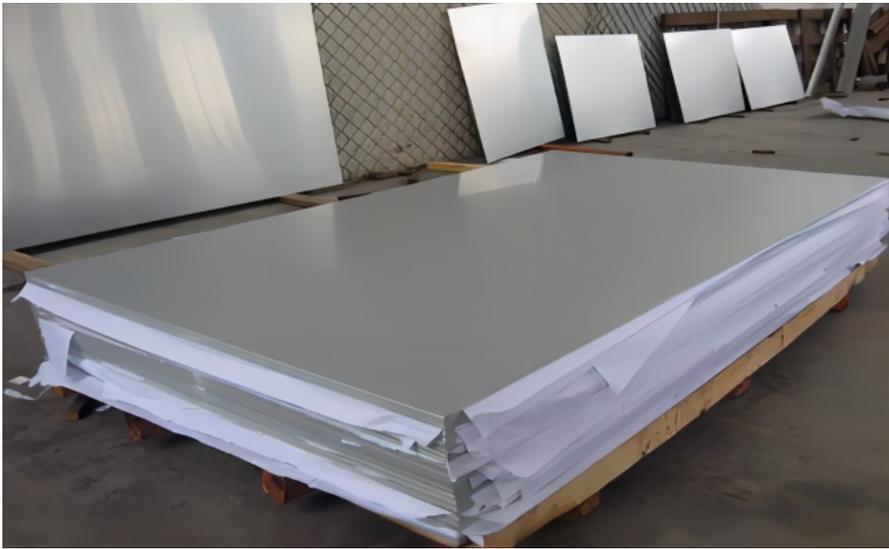

#### Product Description

7075 aluminum plate is a cold treatment forging alloy, high strength, high hardness, far better than mild steel. 7075 aluminum plate is one of the most powerful commercial alloys, general corrosion resistance, good mechanical properties and anode reaction. The fine grain makes the deep drilling performance better, the tool wear resistance enhanced, the thread rolling more unusual, in the density requirement is small, the hardness requirement is relatively high preferred metal material.

### FAQ

#### 1.What is your paying terms?

Our usual paying terms are 30%TT as deposit and balance paid after seeing copy of bill of loading. For clients cooperated for more than one year, we accept 20% prepay. Beside we do business also under LC terms.

#### 2.How long is your delivery time?

For the goods we have in stocks, we deliver the goods within 5 days. If it is a production order with volume not above 200tons, the delivery time will usually be within 20days after sealing contract. And the delivery time shall be slightly longer for order volume above 200tons.

#### 3.Before cooperation we want a sample for inspecting of quality, is that okay?

We can provide a free sample for you shall sample value not above 30USD, you only need to pay the express charge. For a sample valued more than 30USD, the express charge and just one half of sample value is on the account of you, and we afford the other half.

#### 4.Does your company accept third party inspection?

The answer is yes. Especially for new client, they have concern on product quality and quantity, so they authorized the third party inspection like SGS and BV several times to inspect the goods in stead of them, and we coordinated with their work well.
