

AISI 1062 Aluminum Alloy Solid Bar Rod 2024 320mm Diameter Mill Finish

Our Product Introduction

For more products please visit us on aluminium-sheetcoil.com

Basic Information

- Place of Origin: Jiangsu China
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T,L/C
- Supply Ability: 20000tons/year

Product Specification

- Temper: O - H112
- Standard: JIS, AISI, ASTM, GB, DIN, EN, Etc.
- Quality: We Can Accept The Third Party Inspection
- Material: Aluminium Alloy
- Processing Service: Bending, Decoiling, Welding, Punching, Cutting
- Color: Silver White, Black, Can Be Customized According To User's Requirements
- Surface Treatment: Polished
- Shape: Round
- Highlight: **AISI 1062 Aluminum Solid Bar, Aluminum Alloy Solid Bar Rod, 320mm Aluminum Solid Bar**

Product Description

Product Description:

Aluminium Rod is a cylindrical shaped metallic rod made from 6063 Aluminum, 6061 Aluminum, 2024 Aluminum and 7075 Aluminum. It is widely used in building construction, decoration and chemical industry container, and its surface color can be customized according to user's requirements. The diameter of Aluminium Rod can range from 2mm to 100mm or as required. Besides, it can also be processed into various shapes through bending, decoiling, welding, punching and cutting. It has excellent welding performance and higher strength.

Features:

Product Name: Aluminium Rod

Color: Silver White, Black, Can Be Customized According To User's Requirements

Surface Treatment: Polished

Trade Terms: FOB CIF CFR EXW

Brand Name: Chinalco

Temper: O - H112

Shape: Round Rod

Applications:

Aluminium Rod is a kind of metal product with a circular cross-section. It is produced by Chinalco with model numbers of 1050 1060 2024 5052 6061 6063 6082 7075 8011. It has been certified by ASTM GB EN. This high-quality aluminium rod can be used for building construction, decoration, chemical industry container, etc.

Support and Services:

We provide technical support and service for our Aluminium Rod. Our team of experts are ready to provide you with the answers you need. From installation guidance to troubleshooting tips, we're here to help you get the most out of your product.

We also offer a wide range of after-sales services, such as repairs and maintenance, to make sure your Aluminium Rod is always running smoothly. If you ever have any questions or concerns about your product, our friendly customer service team is always here to help.

Packing and Shipping:

Aluminum Rod Packaging and Shipping

Aluminum rods are typically packaged and shipped in bundles. Each bundle should be wrapped in a protective material such as bubble wrap or plastic film to protect it from damage during shipping. The bundles should also be clearly labeled with the product name, size, and quantity. Additionally, all bundles should be securely strapped and sealed for safe transport.

Aluminum rods are typically shipped via truck or freight carrier. The carrier should be chosen based on the size and weight of the shipment. If possible, it is best to select a carrier that offers tracking and insurance to ensure that the shipment arrives safely and on time.
