

Polished Surface Aluminum Pipe 5083 H112 6m Length 2-50mm OD For Industrial Use

Our Product Introduction

For more products please visit us on aluminium-sheetcoil.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T,L/C
- Supply Ability: 20000tons/year

Product Specification

- Shape: Round
- Material: Aluminium
- Trade Terms: FOB,CIF,CFR,EXW
- Color: Silver
- Length: 1000mm-11000mm Or As Required
- Place Of Loading: Shanghai Port
- Surface Treatment: Polished
- Highlight: **Polished Surface Aluminum Pipe tube,
Polished Surface Aluminum Pipe tube,
50mm Aluminum tube**

Product Description:

Aluminium Pipe is an essential component in a variety of industries. It is widely used in construction, automotive, aviation, and other industries due to its excellent properties. It is made of 1050 aluminum, 5083 aluminum or other alloys, and is processed through bending, decoiling, welding, punching, and cutting. It has a polished surface and a wall thickness of 1-20mm or as required, making it a perfect choice for various applications. Aluminium Pipe is corrosion-resistant, lightweight, and stable with great thermal and electrical conductivity. It is also strong and durable, making it an ideal choice for many applications.

Technical Parameters:

Property	Details
Shape	Round
Payment Terms	T/T,L/C
Length	1000mm-11000mm Or As Required
Trade Terms	FOB,CIF,CFR,EXW
Alloy or Not	Alloy
Test	We Can Accept The Third Inspection
Place of Loading	Shanghai Port
Color	Silver
Processing Service	Bending, Decoiling, Welding, Punching, Cutting
Material	Aluminium
Keywords	Aluminum Alloy Pipe, Aluminum Tube, 6061 Aluminum Pipe, 6063 Aluminum Pipe

Applications:

Chinalco aluminum pipes are widely used in various industries due to its light weight, high strength and corrosion resistance. It is made of high quality aluminum materials such as 1050, 1060, 2024, 5052, 6061, 6063, 6082, 7075, 8011 and other materials. It has excellent mechanical properties and anodizing properties, and is widely used in various fields.

Support and Services:

We provide technical support and service for Aluminium Pipe products. Our specialized technical team can help you understand our product specifications, provide advice on product selection, and answer any other questions you may have. We also offer installation and maintenance services to ensure your Aluminium Pipe products are properly installed and running smoothly.

Packing and Shipping:

Aluminium pipes are usually packed with plastic film and then put in wooden cases or metal frames. The frames should be solid and waterproof to protect the pipes from damage caused by external impacts or moisture. The frames also need to be properly labeled to clearly indicate the type of pipe and the size. Finally, the package should be sealed properly to prevent any external contamination. For shipping, the pipes should be placed in a container or trailer that is designed to protect them from any external impacts. The container must be properly sealed and labeled to ensure that the pipes arrive safely.

FAQ:

Q: Do you provide samples ?How can I get a sample to check your quality? Is it free or extra?

A: Free samples are available for your checking and testing. And to get free samples, you need to send us your detailed receiving address (including post code) and your DHL/FedEx/UPS account for collecting samples, courier cost will be paid in your side.

Q: How is the quality of your products?

A: Our products are manufactured strictly according to national and international standard, and we take a test before delivered out. If you want see our quality certifications and all kinds of testing report, please just ask us for it.

Q: Are you factory or trader?

A: Our company has been manufacturing and selling steel products for many years since 2009. We've gained our Export Right and become an integrated company of industry and trade in order to satisfy buyer's multi-request on different material and products.
