

ASTM 6063 T5 Aluminum Pipe 100*50 4mm Wall Thickness Rectangular Alloy Tube Anodizing

Our Product Introduction

For more products please visit us on aluminium-sheetcoil.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T,L/C
- Supply Ability: 20000tons/year

Product Specification

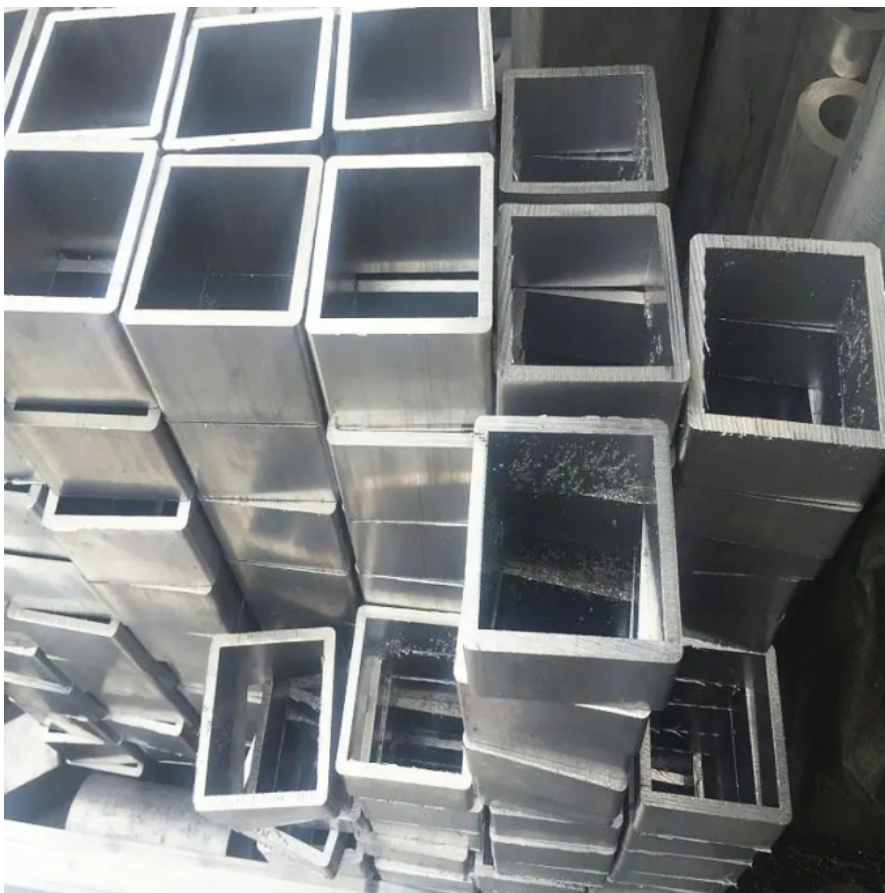

- Product Name: Aluminum Pipe
- Shape: Round,square,rectangle
- Alloy Or Not: Alloy
- Length: 1000mm-11000mm Or As Required
- Usage: Decorative,architecture
- Test: We Can Accept The Third Inspection.
- Highlight: **ASTM 6063 T5 Aluminum Pipe,
100*50 Aluminum Pipe,
Anodizing Aluminum Alloy Tube Pipe**

Product Description

Product Description:

6063 is an aluminum alloy, with magnesium and silicon as the alloying elements. It has generally good mechanical properties and is heat treatable and weldable. It is the most common alloy used for aluminium extrusion. It allows complex shapes to be formed with very smooth surfaces fit for anodizing and so is popular for visible architectural applications such as window frames, door frames, roofs, and sign frames.

Technical Parameters:

Attribute	Details
Product Name	Aluminum Pipe
Material	Aluminium
Place of Origin	CHINA
Trade Terms	FOB,CIF,CFR,EXW
Length	1000mm-11000mm Or As Required
Material	1050 1060 2024 5052 6061 6063 6082 7075 8011
Color	Silver
Delivery Time	7-10 days,depends on the specific order
Test	We Can Accept The Third Inspection.
Out Diameter	2-50mm or as required
Payment Terms	T/T,L/C

Applications:

6063 is used for architectural fabrication, window and door frames, pipe and tubing, and aluminium furniture. -----

Support and Services:

We provide technical support and service for Aluminium Pipe. Our technical team is available round-the-clock to help with any issues you encounter. Our services include, but are not limited to:

Installation and maintenance advice

Assistance with troubleshooting

Answers to technical questions

Product upgrades and updates

Training and education

Replacement parts and components

Packing and Shipping:

Aluminium pipes are shipped and packaged in a way that ensures their safety and efficiency during transportation. The pipes are usually wrapped in plastic wrap and then placed into cardboard boxes. The boxes are sealed to protect the pipes from any moisture or other elements that may cause damage. For larger orders, the pipes may be placed into wooden crates for added protection.

The packages are then labeled and shipped via a reliable courier service. The courier will be able to provide tracking numbers for each package so that customers can monitor the shipment of their order.

FAQ:

Q1: Do you provide samples ?How can I get a sample to check your quality? Is it free or extra?

A1: Free samples are available for your checking and testing. And to get free samples, you need to send us your detailed receiving address (including post code) and your DHL/FedEx/UPS account for collecting samples, courier cost will be paid in your side.

Q2: How is the quality of your products?

A2: Our products are manufactured strictly according to national and international standard, and we take a test before delivered out. If you want see our quality certifications and all kinds of testing report, please just ask us for it.

Q3: Are you factory or trader?

A3: Our company has been manufacturing and selling steel products for many years since 2009. We've gained our Export Right and become an integrated company of industry and trade in order to satisfy buyer's multi-request on different material and products.
