

6061 6063 T6 12mm Aluminum Plate Sheet For Construction Material

Our Product Introduction

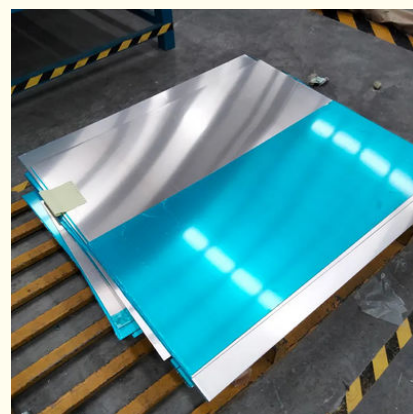

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Chinalco
- Certification: ISO9001
- Model Number: 1000series, 2000series, 3000series, 5000series, 6000series, 7000series
- Minimum Order Quantity: 1 ton
- Price: Negotiable
- Packaging Details: Exporting package/wooden box package etc
- Delivery Time: 3-15 days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 20000 Ton/Tons per Month

Product Specification

- Product Name: Aluminum Plate
- Model Number: 6061 6063
- Alloy Or Not: Alloy
- Thickness: 0.2-200mm Or As Customized
- Payment Terms: T/T, 100% L/C At Sight
- Application: Construction, building Material
- Highlight: **12mm Aluminum Plate Sheet, 6063 T6 Aluminum Plate Sheet, Aluminum Alloy 6061 Plate Sheet**

Product Description

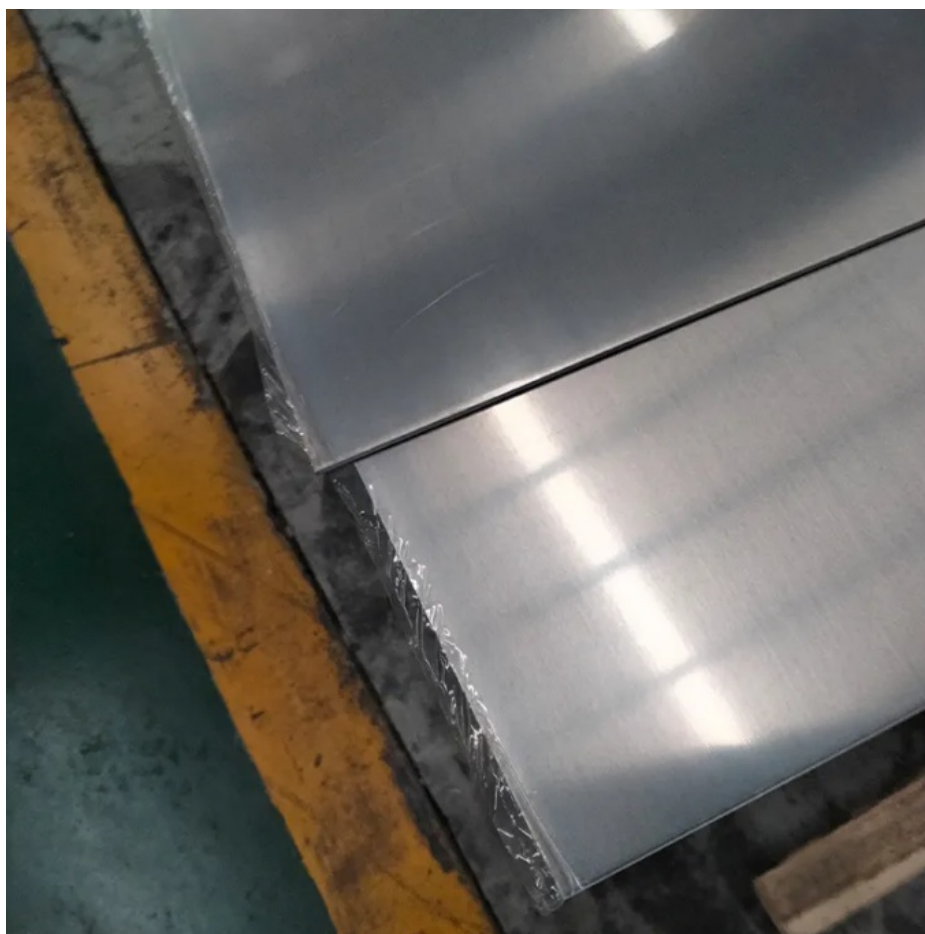

High Quality 6061 6063 T6 12mm Aluminum Plate Sheet For Construction Material

Product Description

Aluminum plates are flat, rectangular pieces of material made from aluminum alloy, which is a lightweight and corrosion-resistant metal. These plates are typically produced by rolling or extruding aluminum ingots or billets, and they come in various thicknesses and sizes to meet a wide range of applications.

Product name	Aluminum Sheet / Aluminum Plate
Thickness	0.15-25.0mm or as required
Width	200-2000mm or as required
Standard	GB, JIS, DIN, ASTM
Grade	1050 1060 1100 3003 3004 6061 6063 7075
Surface Treatment	Brushed, Mirror, Embossed, Sandblasted, etc
Temper	O/H111 H112 H116/H321 H12/H22/H32 H14/H24/H34/H16/H26/H36 H18/H28/H38 H114/H194, etc.
Trade Terms	FOB CIE CFR EXW
Payment Terms	T/T,100% L/C at sight
Package	Standard export package,such as wooden box or as required.

Product Detail

Product Features

- 1.Lightweight:** Aluminum plates are known for their low density, making them lightweight and easy to handle compared to many other metals. This characteristic is particularly advantageous in applications where weight is a critical factor, such as in aerospace and automotive industries.
- 2.Corrosion Resistance:** Aluminum naturally forms a thin oxide layer on its surface, which provides excellent corrosion resistance. This makes aluminum plates suitable for outdoor and marine applications where exposure to moisture and environmental factors is common.
- 3.Good Conductor of Heat and Electricity:** Aluminum is an excellent conductor of both heat and electricity, making aluminum plates valuable in applications like heat exchangers, electrical conductors, and radiators.

FAQ

1. How can I get a quotation from you ?

You can leave us message, and we will reply every message in time. Or we may talk on line by Trademanager. And you can also find our contact information on contact page.

2.Can I get samples before order ?

Yes, of course. we can produce by your samples or technical drawings.

3. What is your delivery time ?

The time of delivery is usually around 7-10 days.We can send out in 7 days, if it has stock.

4.What is your payment terms?

Our usual payment term is 30% deposite, and rest against B/L. 100%L/C at sight is also acceptable.
