

6061 T5 Anodized Aluminum Pipe 40mm X 40mm Square ASTM For Precision

Our Product Introduction

For more products please visit us on aluminium-sheetcoil.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T,L/C
- Supply Ability: 20000tons/year

Product Specification

- Product Name: Aluminum Pipe
- Length: 1000mm-11000mm Or As Required
- Test: We Can Accept The Third Inspection.
- Out Diameter: 2-50mm Or As Required
- Shape: Round,square,rectangle
- Processing Service: Bending, Decoiling, Welding, Punching, Cutting
- Trade Terms: FOB,CIF,CFR,EXW
- Highlight: **Anodized Aluminum Square Pipe,
6061 T5 Aluminum Square Pipe,
40mm x 40mm Square Aluminum Pipe**

Product Description

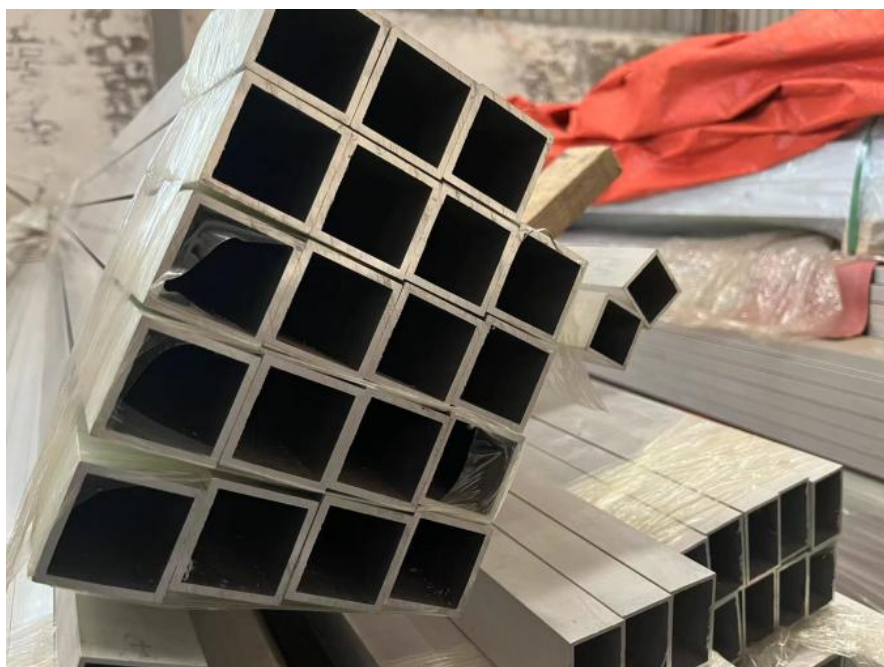

Product Description:

Aluminium Pipe is a kind of pipe made of aluminium material which is widely used in many industries. It has the characteristics of light weight, good corrosion resistance, high strength, long service life, excellent electrical conductivity, and strong formability. This kind of pipe is mainly used in chemical equipment, construction, aerospace, medical and other industries.

Technical Parameters:

Attribute	Value
Shape	Round
Processing Service	Bending, Decoiling, Welding, Punching, Cutting
Wall Thickness	1-20mm Or As Required
Place of Loading	Shanghai Port
Surface Treatment	Polished
Length	1000mm-11000mm Or As Required
Place of Origin	CHINA
Material	Aluminium
Test	We Can Accept The Third Inspection.
Payment Terms	T/T,100% L/C at sight

Applications:

Support and Services:

24/7 support for any technical questions related to Aluminium Pipe.

Troubleshooting services to diagnose and repair any Aluminium Pipe related issues.

Maintenance and repair services to ensure the proper functioning of Aluminium Pipe.

Replacement parts to ensure that Aluminium Pipe components are always up to date and in proper working order.

Warranty coverage to guarantee that Aluminium Pipe will be repaired or replaced free of charge in the event of any defect.

Packing and Shipping:

Aluminium pipe is usually shipped in bundles or coils, depending on the length of the pipe and the size of the order. The bundles or coils are wrapped in plastic and placed in cardboard boxes for protection during transit. They are then secured with strapping tape to ensure they stay secure during transit. For larger shipments, the bundles or coils can be placed on wooden skids and strapped down with metal bands for extra security.

If the pipes are being shipped overseas, they are typically loaded onto cargo ships or container ships. The pipes are then secured inside the ship's cargo hold with special cargo straps to prevent them from shifting during the journey. Once they arrive at their destination, the pipes are unloaded and transported to the site where they are to be used.

The Sample Delivery

FAQ:

1.How can I get a quotation from you?

A:You can leave us message,and we wil reply every message in tiome.Or we may talk on line by our trade manager.Ad you can also find

our contact information on contact page.

2.Can you supply what is the service?

A:we are manufacture,we have many years experience for supply Metal material and products in domestic and foreign. We can supply the kinds of metal material and products,and we also can supply other process services.

3.What about your the fast lead time if we place order?

A:In general,our delivery time is within 7-15 days,and may be longer if the quantity is extremely large or special circumstances occur.
