

2024 Seamless Alloy Hollow Aluminium Pipe Tube Sch 40 Thickness Temper Polished Surface

Our Product Introduction

For more products please visit us on aluminium-sheetcoil.com

Basic Information

- Place of Origin: Jiangsu China
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T,L/C
- Supply Ability: 20000tons/year

Product Specification

- Length: 1000mm-11000mm Or As Required
- Out Diameter: 2-50mm Or As Required
- Processing Service: Bending, Decoiling, Welding, Punching, Cutting
- Wall Thickness: 1-20mm Or As Required
- Trade Terms: FOB,CIF,CFR,EXW
- Surface Treatment: Polished
- Shape: Round
- Highlight: sch 40 hollow aluminium pipe, polished surface hollow aluminium pipe, sch 40 hollow aluminium tube

Product Description

Product Description:

Aluminium Pipe is a type of pipe made of 2024 Aluminum, 6063 T4 Aluminum, and other alloys. It is a commonly used product for a variety of industrial applications. This type of pipe has a polished surface treatment, making it more durable and corrosion resistant. It is produced in CHINA and can be shipped out from Shanghai Port. Sample is available upon request.

Aluminium Pipe has advantages of superior strength, light weight, non-toxic, corrosion resistance, and easy installation. It is widely used for plumbing, irrigation, air conditioning, gas, electrical conduit systems and more. It is also commonly used in the automotive, aerospace, and construction industries.

Features:

item	Aluminum tube
Grade	1000 3000 5000 6000 8000 Etc Series
Shape	Round Hollow
Surface Treatment	Polished
Processing Service	Bending, Decoiling, Welding, Punching, Cutting We accept custom orders of various sizes.
Delivery Time	Usually within 7 days, depends on the specific quantity.
Material	Aluminum Or Alloy
Type	OEM Aluminum Extrusions Profiles
Standard	GB/T 5237 Etc
Technique	Cold Rolled Hot Rolled
Package	Standard packaging, can be packaged according to customer requirements
Payment method	T/T, L/C, Western Union, or according to customer requirements
Sample	Available
MOQ	1000 KGS

Aluminum Grade:

Aluminum Grade		
Alloy Series	Typical Alloy	
1000 Series	1050 1060 1070 1100	Pure aluminum
2000 Series	2024(2A12), LY12, LY11, 2A11, 2A14(LD10), 2017, 2A17	Aluminum copper alloy
3000 Series	3A21, 3003, 3103, 3004, 3005, 3105	Aluminum manganese alloy
4000 Series	4A03, 4A11, 4A13, 4A17, 4004, 4032, 4043, 4043A, 4047, 4047A	Aluminum silicon alloy
5000 Series	5052, 5083, 5754, 5005, 5086, 5182	Aluminum magnesium alloy
6000 Series	6063, 6061, 6060, 6351, 6070, 6181, 6082, 6A02	Aluminum magnesium silicon alloy
7000 Series	7075, 7A04, 7A09, 7A52, 7A05	Aluminum magnesium silicon alloy
8000 Series	8006 8011 8079	Aluminum foil alloy

Detailed Photo:

Test Inspection:

1、 Aluminum tube/pipe

2、 Length width test

3、 Edge measurement

4、 Tensile testing machine

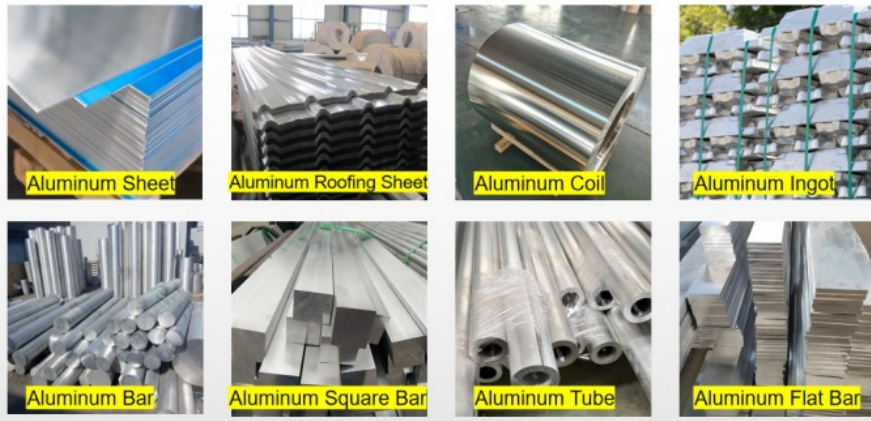

5、 Hardness tester

6、 Bending test

More Products:

Applications:

These aluminium pipes can be used in construction, decoration, transportation, and other industrial fields.

Support and Services:

We provide technical support and service for Aluminium Pipe products to ensure customer satisfaction. Our team of experts is available 24/7 to answer any questions related to Aluminium Pipe products. We provide troubleshooting, installation and maintenance support for Aluminium Pipe products. We also offer a wide range of spare parts and accessories for Aluminium Pipe products. We provide timely and reliable service to customers. Our team of technicians is experienced in installing and maintaining Aluminium Pipe products. We also offer remote technical support and online tutorials to help customers with installing and troubleshooting Aluminium Pipe products.

We are committed to providing the best customer service possible. We believe in offering superior quality products and exceptional customer service. Our team is dedicated to providing the highest level of service and support for Aluminium Pipe products.

Packing and Shipping:

Aluminium pipes are packaged in a variety of ways. Depending on the size and shape of the pipes, they can be packaged in boxes, crates, or on pallets. Pipes can also be shrink-wrapped in plastic wrap for added protection.

For shipping, aluminium pipes are typically placed on a pallet and secured with straps or shrink wrap. The pallet can then be loaded onto a truck and shipped to the customer.

FAQ:

Q.What kind of work does your company do?

A:Our company is a professional manufacturer.

Q. Do you provide free samples?

A:Yes, we can provide sample for testing, buyer should bear all the shipping costs.

Q. How long is your delivery time?

A:Generally it is 3-7 days if the goods are in stock or it is 7-15 days if the goods are not in stock, it is according to quantity.
