

Brushed Mirror 1100 H16 Thin Aluminum Strips Color Coated Cold Drawn Alloy 50mm Width

Our Product Introduction

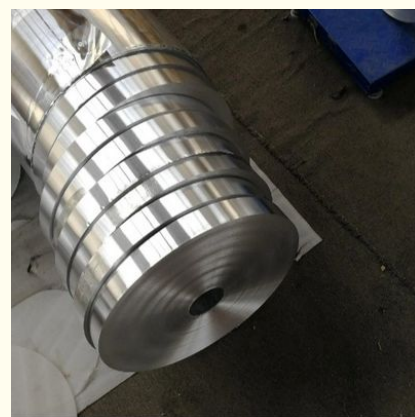

Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: LIANZHONG
- Certification: ISO9001
- Model Number: 1000series, 2000series, 3000series, 4000series, 5000series, 6000series, 7000series, 8000series, 9000series
- Minimum Order Quantity: 1ton
- Price: Negotiable
- Packaging Details: Exporting package/wooden box package/Or per customers'requirement
- Delivery Time: 3-15 days
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 20000 Ton/Tons per Month

Product Specification

- Product Name: Aluminum Strip
- Temper: O-H112
- Width: 10-380mm Or As Required
- Trade Terms: FOB CIF CFR EXW
- Packing: Standard Seaworthy Packing
- Surface Treatment: Mirror, brushed, mill Finish
- Highlight: 1100 h16 thin aluminum strips, 50mm width thin aluminum strips, brushed mirror aluminium strip 3mm

Product Description

Brushed Mirror 1100 H16 Aluminium Strip Color Coated Cold Drawn Alloy Strip 50mm Width

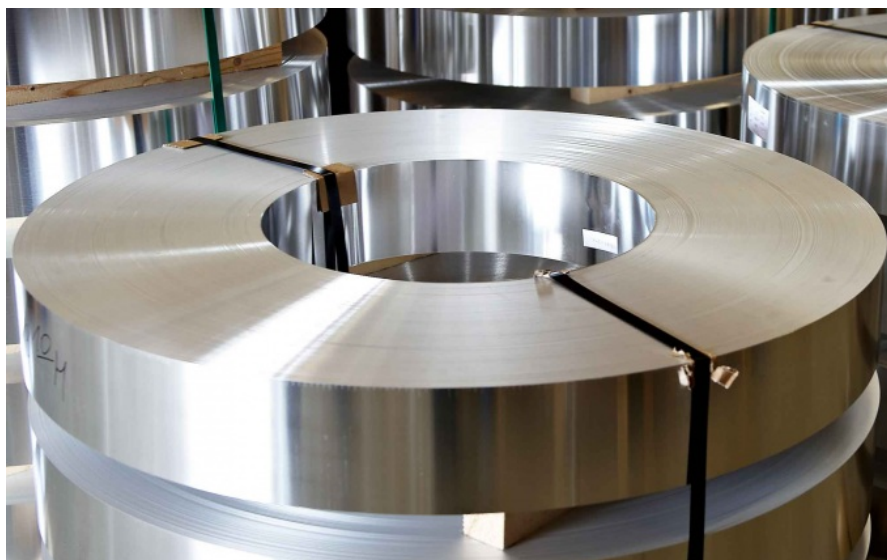

Product Description

The raw material of aluminum strip/aluminium strip is pure aluminum or aluminum alloy cast rolled aluminum coil, hot rolled aluminum coil, which is rolled into thin aluminum coils of different thicknesses and widths by a cold rolling mill. According to the purpose, the aluminum strip is longitudinally cut into aluminum strips of different widths by a longitudinal shear machine.

Aluminum strip has many uses, such as aluminum plastic composite pipes, cables, optical cables, transformers, heaters, louvers, and so on.

Material: aluminum alloy A3003, A3005, A3105	Aluminum Thickness: 0.12-1.5mm
Strip Width: 120,123,125,137,140,173,174,187,229 mm or by customer's option	Interior Diameter: 505mm, etc
Weight: 0.5-3.0T/coil or by buyer's option	Surface Treatment: PUPA/PEPA coating
Color: white, silver, brown, beige, green, blue and other solid RAL colors, wooden grain, plain color, metallic, patterned, etc	Dried and Baked: oven baked at 450 degree F
Coating Thickness: 24-26 micron	Coating Hardness: (pencil hardness) HB
Coating Adhesive: no lower than first grade	Impact resistance: no cracking and peeling(50kg/cm, ASTM D-2794:1993)
Flexibility(T-bend): 7T or by your option	MEK resistance: more than 100
Outer Packing: wooden plate, covering with craft paper and film, Eye to Sky or wall to Sky packing.	

Product Detail

Features:

Alloy series	Status	Typical alloy	Material properties	Scope of application
1 series		1050 1060 1070 1100	1) Aluminum content of more than 99%, with excellent formability 2) High reflectivity 3) Stable performance, the surface can be anodized	Ordinary cooking utensils (depth <400mm): 1) Food, chemical and extrusion coils, various hoses, fireworks powder; 2) Chemical equipment is its typical use; 3) Chemical products, food industry installations and storage containers, weldments, heat exchangers, printed boards, nameplates and reflective appliances
	O H*2	3003 3004	1) Excellent formability 2) High elongation,	1) Kitchen utensils, food and chemical products, storage equipment, storage tanks for transporting liquid products, and various pressure vessels and pipelines;

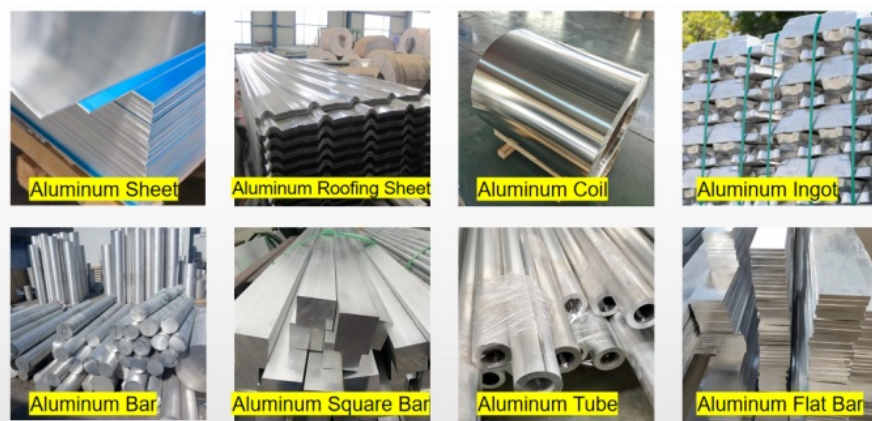

3 series	H*4	300	can be used for deep	2) Chemical product production and storage devices, plate processing parts, building processing parts, building tools and various lamp parts; 3) Room partition, baffle, movable room board, eaves gutter and downpipe, sheet forming parts, bottle caps, corks, etc
	H*6	5	drawing process	
	H18		3) High grain size,	
	H11	310	smooth surface, high reflectivity	
5 series	1	5		1) Aircraft fuel tank, oil pipe, traffic vehicle and ship sheet metal parts, instruments, street lamp supports and rivets, hardware products, etc 2) Plate Weldments of ships, automobiles and aircraft; Pressure vessel, refrigeration device, TV Tower, drilling equipment, transportation equipment 3) Storage tanks, pressure vessels, ship materials
	H11			
	2	505	1) Low material density, finished	
	2	508	product weight	
8 series	3		2) High compressive strength and elongation.	1) The aluminum plate with bottle cap as the main function is also used in radiators, most of which are used in aluminum foil products
	4	575	3) High grain size, surface effect is good	

Application:

The main uses of aluminum belt are: transformer aluminum belt (transformer aluminum foil), aluminum belt for high-frequency welding hollow aluminum strip, aluminum belt for fin radiator, aluminum belt for cable, aluminum belt for stamping, aluminum belt for aluminum edge strip, etc.

FAQ

Q1: Can I get some samples?

A: Can provide small samples for free. Customized sample takes 5-7 days.

Q2: How about the delivery time?

A: Small trial order takes 5-7 days. Container order need 15-20 days.

Q3: Do you have any protection when packing?

A: Cover with PE film , wrap with waterproof paper, pack with wooden plate,belt by steel strip, fasten on pallet.

Q4: What's the terms of delivery?

A: EXW, FOB, CFR, CIF.

Q5: How many countries you already exported?

A: Exported to more than 23 countries mainly from South America(Chile, Brazil etc), , UK, Kuwait, SAUDI ARAB, UAE, Singapore, Turkey, Australia,Egypt, South Africa etc.
