

## Astm B209 5052 Aluminum Round Bar Cold Drawn For Construction

Our Product Introduction

For more products please visit us on [aluminium-sheetcoil.com](http://aluminium-sheetcoil.com)

### Basic Information

- Place of Origin: Jiangsu, China
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T(30% Deposit), L/C
- Supply Ability: 20000 tons/year

### Product Specification

- Color: Silver White, Black, Can Be Customized According To User's Requirements
- Processing Service: Bending, Decoiling, Welding, Punching, Cutting
- Length: 1000-11000mm Or As Required
- Quality: We Can Accept The Third Party Inspection
- Diameter: 2mm-100mm Or As Required
- Trade Terms: FOB CIF CFR EXW
- Highlight: **astm b209 5052 aluminum round bar, cold drawn 5052 aluminum round bar, construction 5052 aluminum rod**

Product Description:

Aluminium Rods feature a polished surface treatment, and come in silver white and black colors, although they can also be customized according to user's requirements. Additionally, their processing services include bending, decoiling, welding, punching, and cutting. Aluminium rods are a versatile product with a range of uses, from construction and manufacturing to industrial and engineering.

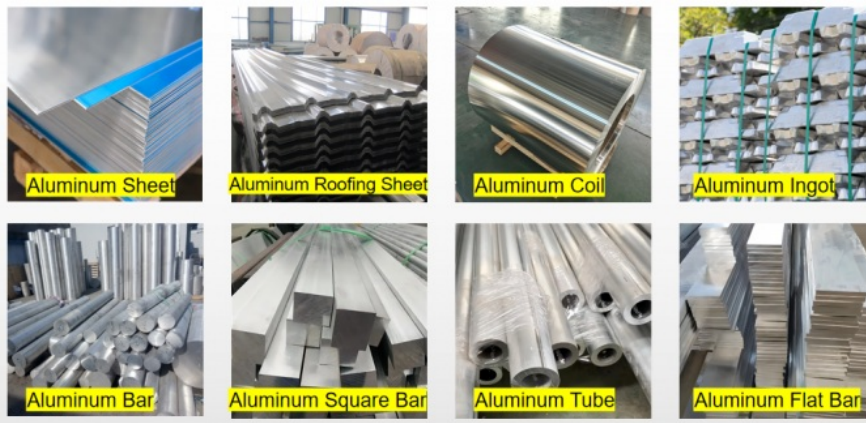

They have superior strength and durability, making them a great choice for construction projects, as well as for use in engineering and manufacturing applications. In addition, they are lightweight and corrosion resistant, making them ideal for use in outdoor settings.

Aluminium rods are a great choice for many applications due to their strength, durability, and lightweight. They are also corrosion resistant and come in a variety of sizes, making them a great choice for many projects. Whether you need an aluminum round rod, aluminum alloy rod, or a 2024 aluminum rod, Aluminium Rods are the perfect choice for your project.

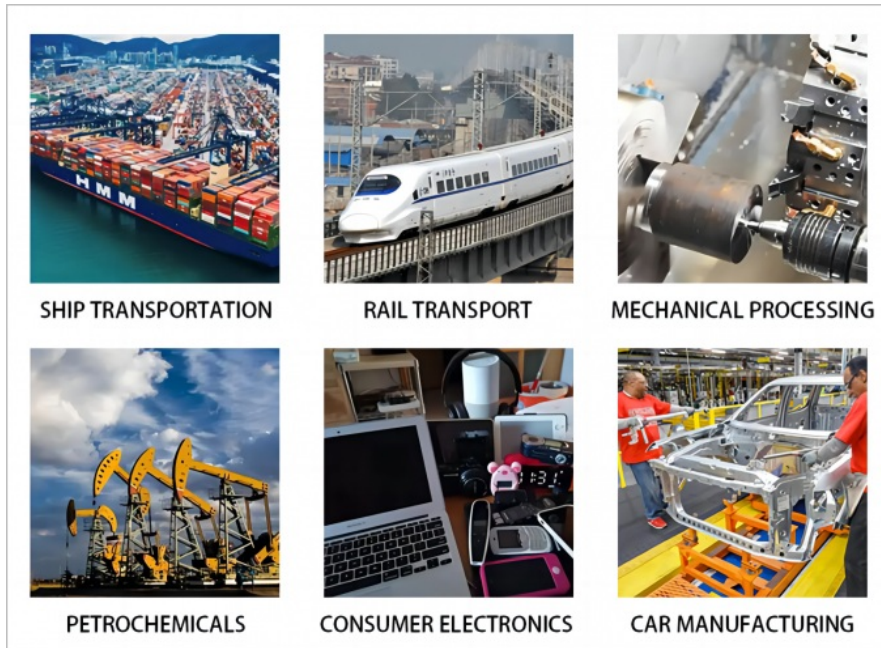

Features:

Product Name	Aluminum bar
Material Grade	1000series: 1050,1060,1070,1080,1100,1435, etc 2000 series: 2011,2014,2017,2024, etc 3000 series: 3002,3003,3104,3204,3030, etc 5000 series: 5005,5025,5040,5056,5083, etc 6000 series: 6101,6003,6061,6063,6020,6201,6262,6082, etc 7000 series: 7003,7005,7050,7075, etc
Standard	ASTM, ASME,EN, JIS, DIN,GB/T etc
Size	Round tube: OD:2-914mm (1/16"-36") WT:0.2-120mm(SCH5S-SCH160S) Square tube: 2*2-1016*1016mm(1/16"-40") WT:0.2-120mm Rectangular tube: 2*4-1016*1219mm(1/16"-48") WT:0.2-120mm
Surface	Mill finish,Anodized,Electrophoresis,Powder coating,Wooden grain,Sand blast
Trade Terms	EXW,FOB,CIF CFR
Loading Port	Shanghai port, Tianjin port, Qindao port
Payment terms	30% deposit by T/T, the balance against copy of B/L by T/T 30% deposit by T/T, the balance by L/C at sight. 100% L/C at sight.
MOQ	1000kgs
Packing Detail	Standard export package or as required.
Delivery time	1.Usually,within7-10 days after receiving deposit or LC. 2.According to the order quantity
Samples	Free samples are provided but the freight is borne by the buyer

## Applications:

## Support and Services:

We provide professional technical support and service for Aluminium Rod. Our team of engineers and technicians are well-trained to understand the technical aspects of the product and any issues you may have.

We have a dedicated customer service team who are always available to answer any questions or queries that you may have about the product. They can provide you with detailed advice and assistance to make sure you get the most out of your product.

We also provide a range of resources to help you keep your Aluminium Rod up to date and running smoothly. These include the latest product updates, technical support documents, and troubleshooting guides.

If you need any further assistance with your Aluminium Rod, our team are always happy to help. Please do not hesitate to contact us.

## Packing and Shipping:

Aluminium rods are packed and shipped in strong wooden cases or crates. They are then covered with a layer of protective plastic wrap. The package is then labeled with the customer's name, order number, and product specification. The package is also secured with strong tape and straps to ensure that the rods are safe during transportation. The package is then delivered to the customer's address via a trusted shipping carrier. Delivery times may vary depending on the customer's location, but most orders arrive within 5-7 business days.

## FAQ:

Q1:Can you send samples?

A:Of course, we can provide customers with free samples and express shipping service to all over of the world.

Q2:What product information do I need to provide?

A>Please kindly provide the grade, width, thickness, surface treatment requirement should you have and quantities you need to purchase.

Q3:It's my first time to import steel products, can you help me with it?

A:Sure,we have agent to arrange the shipment, we will do it together with you.

Q4:How long does your delivery time take?

A:In general, our delivery time is within 7-15 days, and may be longer if the quantity is extremely large or special circumstances occur.
