

ASTM Anodizing 5052 Aluminum Sheet H112 10mm Thick Double Sided Film For Building

Our Product Introduction

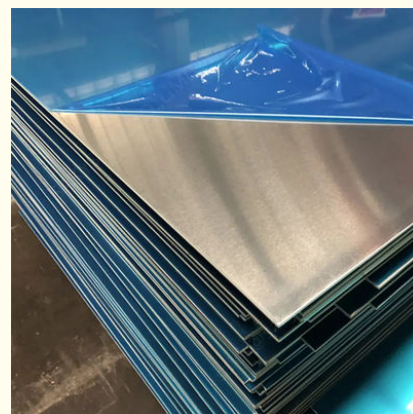

Basic Information

- Place of Origin: Jiangsu China
- Brand Name: Chinalco
- Certification: ASTM GB EN
- Model Number: 1050 1060 2024 5052 6061 6063 6082 7075 8011
- Minimum Order Quantity: 1 TON
- Price: Negotiable
- Packaging Details: Standard Seaworthy Packing
- Delivery Time: 7-10 days, or depends on the specific quantity
- Payment Terms: T/T, 100% L/C At Sight
- Supply Ability: 20000 tons/year

Product Specification

- Product Name: Aluminum Sheet
- Material: 5052 5083
- Thickness: 0.6-12mm Or As Required
- Length: 1000mm-11000mm Or As Required
- Hardness: 1/2 3/4 Full Hardness
- Trade Terms: FOB CIF CFR EXW
- Shape: Flat Plate Sheet
- Highlight: Anodizing 5052 aluminum sheet,
Building 5052 aluminum sheet

Product Description

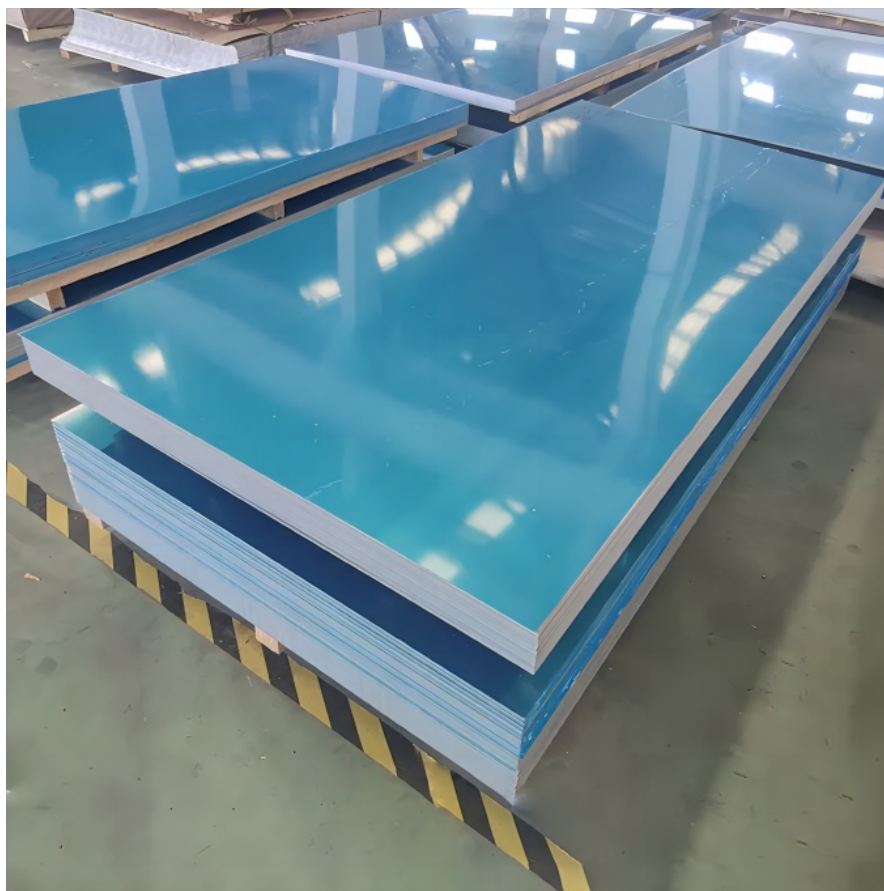

Product Description:

Aluminium Plate Sheet boasts of several key features that make it stand out from other similar products in the market. It has a polished finish, providing an attractive and smooth surface. It is also made from 5052 aluminum, known for its strength and versatility. Additionally, it is an aluminum alloy sheet, making it suitable for various applications that require a combination of properties.

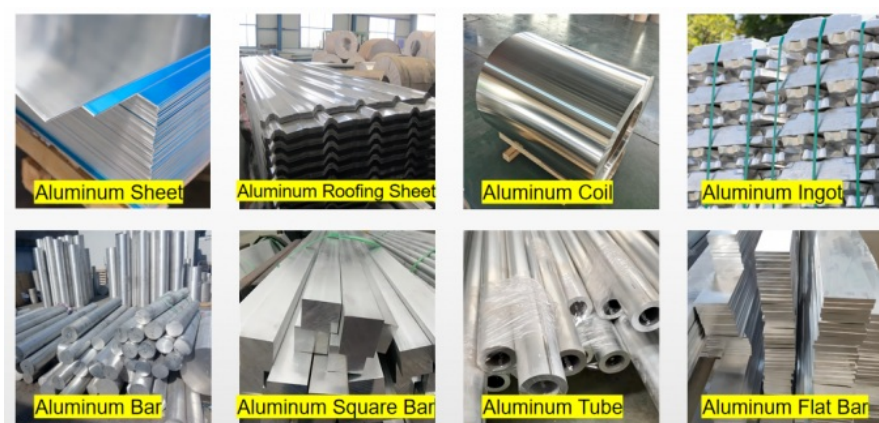

Features:

Product Name	Aluminum plate
Material	1050/1060/1070/1100/1200/2A21/3003/5052/5083/6061/6082/8011
Thickness	0.1mm-20mm or as required
Width	800mm-2200mm or as required
Length	1000mm~9000mm or as required
Surface	Oxidation,embossed,mill,bright,polished,hair line,brush,sand blast,checkered,etc.
Package Type	Export standard package: bundled wooden box, suit for all kinds of transport, or be required.
Container size	20ft GP:5898MM(Length)*2352mm(Width)*2393mm(High) 40ft GP:12032mm(Length)*2352mm(Width)*2393mm(High) 40ft HC:12032mm(Length)*2352mm(Width)*2393mm(High)

Applications:

Aluminium Plate Sheet is widely used in various industries due to its excellent properties, such as corrosion resistance, high strength, and lightweight. Some of the common application scenarios include:

Industrial Machinery and Equipment: With its high strength and durability, Chinalco Aluminium Plate Sheet is widely used in industrial machinery and equipment, such as cranes, excavators, and conveyor belts.

Transportation: Chinalco Aluminium Plate Sheet is an ideal choice for transportation applications, such as truck bodies, trailers, and train carriages, due to its lightweight and corrosion-resistant properties.

Architecture and Construction: Chinalco Aluminium Plate Sheet is widely used in the construction industry for roofing, cladding, and facades due to its durability, corrosion resistance, and aesthetic appeal.

Aerospace: With its high strength and excellent formability, Chinalco Aluminium Plate Sheet is widely used in the aerospace industry for manufacturing aircraft parts and components.

Marine Industry: With its excellent corrosion resistance, Chinalco Aluminium Plate Sheet is an ideal choice for marine applications, such as shipbuilding and offshore structures.

Automotive Industry: Chinalco Aluminium Plate Sheet is widely used in the automotive industry for making car body panels, wheels, and other components due to its lightweight and high strength.

Packing and Shipping:

Aluminium Plate Sheet is carefully packaged and shipped to ensure its safe delivery to your doorstep.

Each sheet is wrapped in protective film and then placed in a sturdy wooden crate to prevent any damage during transportation. The crates are then securely strapped and labeled with product information and handling instructions.

The Sample Delivery

FAQ:

Q:How about the quality?

A:Third party inspections are always welcomed. Like BV, SGS etc.

Q:May I customize the steel pipe?

A:Sure you can, we can produce according to your requirement, you can send the CAD or design drawing.

Q:What product information do I need to provide?

A:Please kindly provide the grade, width, thickness, surface treatment requirement should you have and quantities you need to purchase.
