Product Description

5052 H32 Alloy Aluminium Plate Sheet 3mm Thick With 3/4 Hardness For Industrial

Product Description:

Aluminium Plate Sheet is available in a silver color, giving it a sleek and modern look. It is a popular choice in various industries due to its excellent properties such as high strength and corrosion resistance.

Key Features:

High Strength: The 6061 aluminum alloy used in the production of this sheet provides it with exceptional strength, making it suitable for use in various applications.

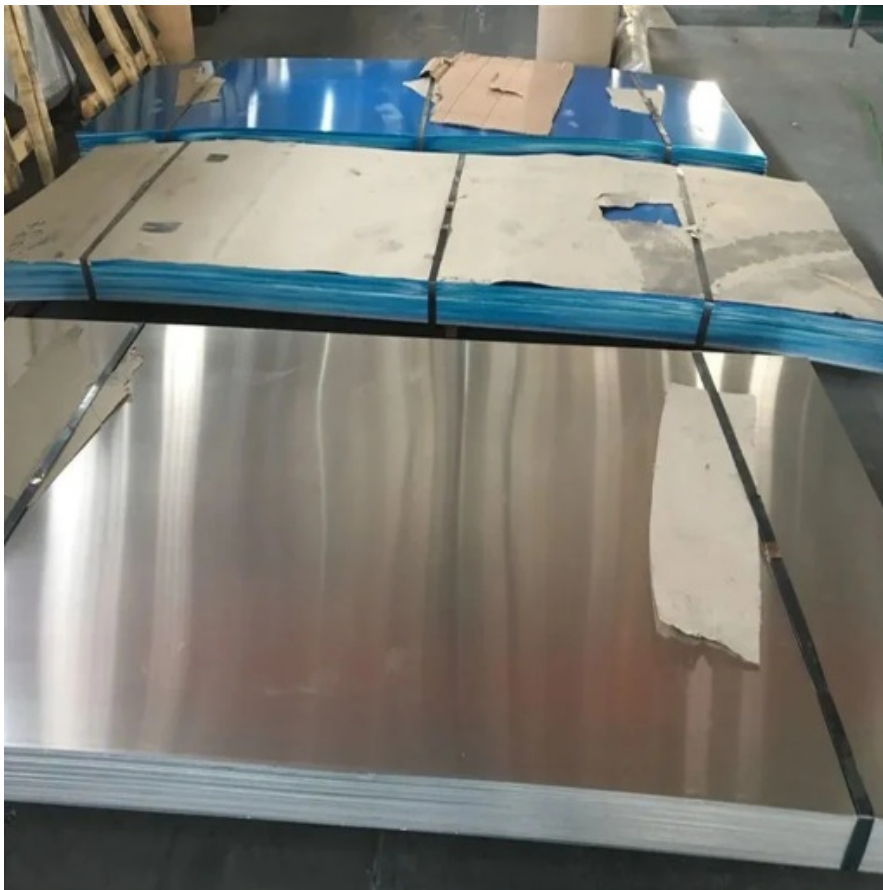

Corrosion Resistance: The sheet is resistant to corrosion, making it ideal for use in outdoor and marine environments.

Anodizing Aluminum Sheet: The sheet can be anodized, which enhances its durability and adds to its aesthetic appeal.
