## Product Description

### Custom Width Thickness ASTM 2024 H22 H24 High Strength Aluminum Coil Strip For Roofing Sheet and Building

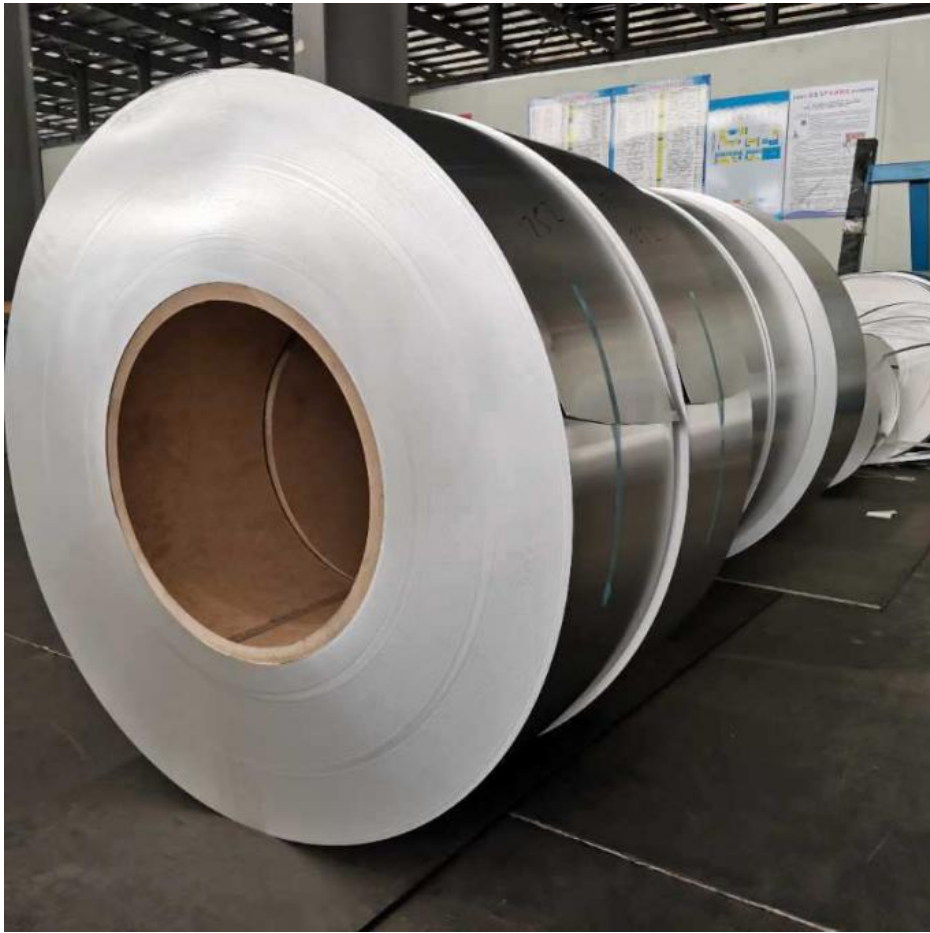

#### Product Description

2024 aluminum coil, a premium member of the 2000 series, is highly suitable for roofing sheets and building applications. Its working principle stems from the copper-aluminum alloy composition, which delivers exceptional strength and fatigue resistance, ensuring long-term durability in architectural settings. Available in tempers from O to H112, it balances formability and structural stability, meeting diverse construction needs.

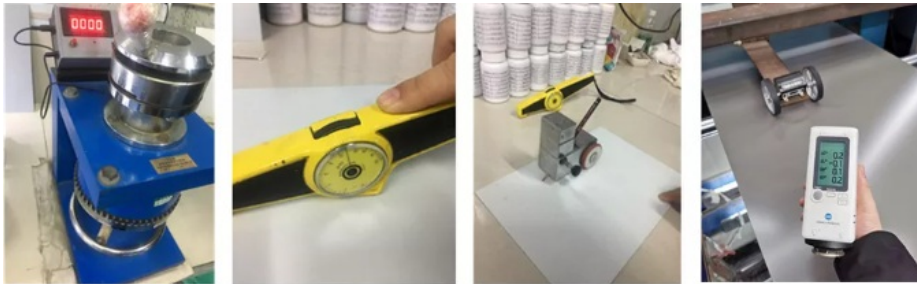

Specifications are flexible: thickness ranges from 0.1-4mm with  $\pm 1\%$  tolerance, and width is 10-2500mm (customizable). Surface treatments like mirrored, brushed, sandblasted, etc., enhance both aesthetics and weather resistance. Processing services including bending, punching, and cutting are offered for tailored solutions.
